

FRONT

1. Power LED
2. Network LED
3. Tuner 0 LED
4. Tuner 1 LED
5. IR Receiver

BACK

6. Tuner 0
7. Tuner 1
8. Network connector
9. Power connector

Quick Start Guide

- ▶ Connect both tuners to the **cable** or **antenna** signal, before any set-top-box. Use a splitter if needed.
- ▶ Use the **network cable** to connect the HDHomeRun to your home network or computer.
- ▶ Connect the **power adapter**. The LEDs will flash briefly.
- ▶ **Insert the CD** and run the **installation** program.

Status LEDs

- ▶ The **Power LED** will remain lit.
- ▶ The **Network LED** will flash while connecting to the network and will remain lit when connected.
- ▶ The **Tuner LEDs** will light when streaming video to the computer.
