- Game Consoles

One click of our App to view Live TV

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

FCC §15.105: - This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radiocommunications. However, there is no guarantee that interference will not occur in a particular installation.

## 1. Connect coax cable between HDHomeRun PRIME and wall/splitter

## 2. Connect network cable between HDHomeRun PRIME and router

## 3. Insert M-CARD obtained from your cable provider

If your provider uses SDV, connect the tuning adapter to the USB port on HDHomeRun PRIME and the cable line.

## 4. Connect the power adapter to the HDHomeRun PRIME and an outlet

## 5. Install HDHomeRun software on your PC. Download online instructions, and follow the wizard.

## 6. Contact your cable provider to set up the CableCARD
